

MATERIAL SAFETY DATA SHEET

SECTION I - IDENTIFICATION

Manufacturer's Name: Safeskin Corporation	Emergency Telephone Number: (800) 462-9993
Address: 12671 High Bluff Drive, San Diego, CA 92130	Chemical Family: N/A
Trade Name: Nitrile examination glove	CAS No: N/A
Product Code:	Formula Name: N/A
Chemical Name and Synonyms: acrylonitrile butadiene rubber	
MSDS No.: N001	Date Issued: June 15, 1996

SECTION II - SPECIAL REGULATORY HAZARDS -

Special Regulatory Hazards -none

SECTION III - PHYSICAL DATA

Appearance and Color: solid, light blue	
Solubility: aromatic hydrocarbons, esters and ketones	
Melting Point: not established	Specific Gravity: not applicable
Boiling Point: not applicable	Vapor Pressure: not applicable
Other Data: not applicable	Vapor Density: not applicable
Composition: acrylonitrile butadiene rubber	Volatility @ 70°F: not applicable

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

Flash Point: not applicable	Autoignition Temperature: not applicable
Extinguishing Media: water, foam	
Flammable Limits: not applicable	
Special Fire Fighting Procedure: emergency equipment with self-contained breathing apparatus; irritating and toxic gases may be generated by thermal decomposition and combustion.	
Unusual Fire and Explosive Hazards: not determined	

SECTION V - REACTIVITY DATA

Stability: Avoid freezing. Avoid excessive heat.
Incompatibility: not established
Decomposition Products: by high heat or fire, CO ₂ , CO, HCN, oxides of nitrogen and hydrocarbons

NA = Not Applicable

ND = Not Determined

NE = Not Established

Safeskin makes no representation or warranty with respect to the information in this Material Safety Data Sheet. The information is, however, as of this date provided, true and accurate to the best of Safeskin's knowledge. This list of information is not intended to be all inclusive. Actual conditions of use and handling may require considerations of information other than, or in addition to, that which is provided herein.

MATERIAL SAFETY DATA SHEET**SECTION VI - STORAGE, SPILLS AND DISPOSAL INFORMATION**

Storage: Store away from heat, moisture (below 95°F and less than 50% humidity), direct sunlight and other types of UV radiation. Store away from sources of ozone, such as electrical equipment, X-ray machines, generators, fans, etc. Store in original packaging.

Spills / Disposal: discard in appropriately marked containers.

Disposal after Use: material may be incinerated or landfilled in compliance with federal, state/provincial and local environmental control regulations.

SECTION VII - HEALTH RELATED DATA

Specific Hazard(s): Hypoallergenic product has reduced levels of chemicals in general and chemical contact sensitizers in particular. Contact is not expected to cause any irritation or allergic contact dermatitis as might be manifested as typical Type IV allergic reactions.

Primary Route(s) of Entry: Skin contact. Any Type IV reaction would occur local to the skin area in contact with the product.

First Aid Procedures: NA

NA = Not Applicable

ND = Not Determined
