1. Substance / Preparation and Company name

Product Name: go!

Recommended use: For bonding of composite to tooth surfaces.

Manufacturer / Supplier

SDI Limited
5-9 Brunsdon Street, Bayswater
Victoria, 3153, Australia

SDI Inc.
729 N.Route 83, Suite 315
Bensenville 60106 IL, USA

Telephone: +61 3 8727 7111 (Business hours)

Southern Dental Industries Ltd
Block 8, St Johns Court
Swords Road
Santry, Dublin 9, Ireland

</table>

3. Hazard Identification

go! may be irritating to skin, eyes and mucous membranes. Go contains acetone and therefore must be not be stored anywhere near naked flames.

Risk phrases – 36/37/38: Irritating to eyes, respiratory system and skin

Safety phrases – 2: Keep out of reach of children.

26/28: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. After contact with skin, wash immediately with soap and water.

3/15/16: Keep in a cool place, away from heat and sources of ignition.
4. First Aid Measures

Eye (contact): Flush opened eye with running water for at least 5 minutes. Seek medical attention.

Skin (contact): Remove contaminated clothing. Wash skin with soap and water. In case of allergic reaction, seek medical attention.

Ingestion: Seek medical attention.

5. Fire Fighting Measures

Suitable extinguishing media: Sand, chemical foam, carbon dioxide, dry chemicals.

Unusual Fire and Explosion Hazards: Heat can cause polymerization with rapid release of energy which may melt the container.

Special protective equipment: No special measures required for small quantity. For large quantity, wear approved respirator and protective gear. Use water spray to cool container.

6. Accidental Release Measures

Personal precautions: Not required.

Environmental precautions: Prevent any spillage from entering waterways, drains or sewage system.

Methods for cleaning up: Mop up with absorbent towel or paper. Dispose into waste container.

7. Handling and storage

Handling
Replace caps immediately after use.

Storage
Store in a cool place at temperatures between 2°C and 8°C (35°F - 45°F). Keep out of direct light.

8. Exposure controls and personal protection

Respiratory protection: None required under normal conditions of use.

Hand protection: Rubber, latex or PVC gloves.

Eye protection: Safety glasses, goggles or face shield.
9. Physical and chemical properties

Appearance: Orange liquid.
Odour: Slightly characteristic odour.
Boiling point: Gels before boiling.
Melting point: Not applicable.
Specific gravity: 0.93
Flash point: -20°C
Flammable: Approximately 3 - 13% in air.
Autoflammability: Does not self ignite.
Explosive properties: Does not present an explosion hazard.
Oxidizing properties: Not established.
Vapour pressure (@20°C): Not established.
Relative density: Not established.
Solubility: Insoluble in water.

10. Stability and Reactivity

Stability: Stable under normal conditions.
Conditions to avoid: Avoid heat, ignition sources, aging, contamination and intense visible light.
Materials to avoid: Free radical formers, e.g. peroxides, reducing substances and/or heavy metals ions. Reacts violently with bromoform and chloroform in the presence of alkalis or in contact with alkaline surfaces. Decomposes violently in contact with nitric / sulfuric acid mixtures.

Hazardous decomposition products: None under normal conditions; oxides of carbon when burned.

Hazardous reactivity (polymerization): Heat and intense light can cause polymerization.
11. Toxicological information
   Acute toxicity: Irritating to skin, eye and mucous membrane.
   Sensitization: No sensitizing effect known. In isolated cases contact allergies have been reported.
   Inhalation: No side effects expected.

12. Ecological information
   Self assessment: Slightly hazardous for water. Do not allow large quantities to reach sewage system and waterways.

13. Disposal considerations
   Dispose of in accordance with local official regulations.

14. Transport information
   g01, aqueous solution. Proper shipping name Acetone UN1993 Packing Group II Class 3.

   If packed as Chemical kit the following classification may be considered if all ICAO/IATA transport requirements are met:

   Chemical Kit UN3316 - Class 9.

15. Regulatory information
   This product is regulated by:

   TGA
   Medical Devices Directive 93/42/EEC
   FDA
   National regulations.
16. Other information

The information provided herein is given in good faith, but no warranty expressed or implied is made.
