### WATER SOLUBLE FOR ENHANCED ABSORPTION

#### DID YOU KNOW?

There is an intricate group of receptors within the body called the endocannabinoid system (ECS). This complex network impacts many areas of health and is most abundant in the brain and immune system. Studies have shown the ECS to be responsible for important functions such as sleep, relaxation, inflammatory responses, and cognitive ability. The ECS is normally fueled by the healthy production of endocannabinoids. The challenge arises when endocannabinoid production becomes impaired or slowed. The good news is that nature has gifted us with a solution. Phytocannabinoids innately occur in the hemp plant and can serve as a replacement for the endocannabinoids your body may be lacking.

#### THE NEWS IS OUT

Since ancient times, the hemp plant has been revered for an abundance of health benefits. Hemp is naturally rich in phytocannabinoids. This amazing botanical includes hundreds of

other biologically active compounds, each one with its own potential for health benefits. However, when the plant is consumed in its full and natural arrangement, the potential for health impact explodes. This phenomenon is known as the “entourage effect” and it only occurs in full spectrum hemp oil.

#### INTRODUCING ULTRACELL

Available exclusively from Zilis, UltraCell is a full spectrum, plant-based, and water soluble hemp oil. Our team of experts delicately extracts the complete oil profile of hemp to make every bottle of UltraCell. Every delightful serving provides phytocannabinoids, flavonoids, terpenes, vitamins, minerals, omega fatty acids, and more. UltraCell comes in three all natural options: delicious Lemon flavor, luscious Berry flavor, and hemp flavored Raw.

#### EXCLUSIVE TECHNOLOGY

As we all know, oil and water don't mix. It's a widely known fact that oil-based supplements are poorly absorbed by the body. Our proprietary UltraCell technology has been developed by our team of experts to make the product 100% water soluble. Through our proprietary process, every compound available is delivered deep into your system. Bioavailability of 94% means more health benefits and a faster onset of action.
